

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

ACCOUNTS AND PAPERS:

1894:

FORTY-SEVEN VOLUMES:—CONTENTS OF THE

SECOND VOLUME.

N.B.—*THE* Figures at the beginning of the line, correspond with the N° at the foot of each Paper; and the Figures at the end of the line, refer to the MS. Paging of the Volumes arranged for The House of Commons.

ARMY ESTIMATES:

1. Army Estimates of Effective and Non-Effective Services, for 1894–95. p. 1

Army (Clothing Factory):

60. Annual Accounts of the Royal Army Clothing Factory, for the Year 1892–93; with the Report of the Comptroller and Auditor General thereon. 243

Army (Ordnance Factories):

9. Estimate of the Sum required in the Year ending 31st March 1895, to defray the Expense of the Ordnance Factories, the Cost of the Productions of which will be charged to the Army, Navy, and Indian and Colonial Governments, &c. 337

Statement of Excesses:

29. Statement of the Sum required to be voted in order to make good the Excess on the Grant for the Expense of the Ordnance Factories, for the Year ended 31st March 1893. 345

Army (Ordnance Factories):

61. Annual Accounts of the Ordnance Factories, for the Year 1892–93; with the Report of the Comptroller and Auditor General thereon. 347

Supplementary Army Estimate, 1893–94:

2. Estimate of the further Amount that will be required during the Year ending 31st March 1894, to meet Expenditure not sufficiently provided for in the Original Army Estimates for the Year. 617

Supplementary Estimate, 1893–94 (Army Ordnance Factories):

8. Estimate of the further Amount required during the Year ending 31st March 1894, for the Service of the Ordnance Factories. 621

Army (Memorandum on Estimates):

- [c. 7297.] Memorandum of the Secretary of State relating to the Army Estimates for 1894–95. 623

Surplus on Vote:

- ✓37. Treasury Minute, dated 14th March 1894, under Section 4 of "The Appropriation Act, 1893," authorising the temporary application of Surpluses on certain Army Votes for the Year 1893-94, to meet Excesses on certain other Army Votes for the same Year. p. 627

Alphabetical Index to Army Estimates - - -	-	232

**STATEMENT of the Principal Points of DIFFERENCE between the ESTIMATES of
1894-95 and those for 1893-94.**

	Variations due to Policy and Administration.	Automatic Variation.
INCREASES.	£.	£.
Regimental Pay, Provisions, &c. :		
Addition of 895 men to Regimental Establishments (largely due to augmentation of the Force in Egypt), and anticipated Increase in Number of Effectives - - - - -	26,000	30,000
Army Reserve, Growth of Force - - - - -	- -	54,900
Army Reserve, Drill or Training - - - - -	2,400	—
Militia, Increase in Number of Effectives - - - - -	- -	40,000
Volunteers, Increase in Number of Effectives and in Camp Allowances	- -	18,000
Forage and Coal : Rise in Prices - - - - -	- -	88,000
Transport - - - - -	- -	9,000
Annuities for Repayment of Loans under Barrack Act - - -	- -	43,000
General Staff and Medical Establishments - - - - -	2,000	1,900
Barrack Wardens, and Wages, Army Service Corps, and Ordnance Store Establishments - - - - -	5,100	1,000
Miscellaneous Services (Vote 12): Medals, Police, Inventors' Rewards, &c. - - - - -	3,500	800
Miscellaneous Net Increases - - - - -	- -	2,900
TOTAL INCREASES - - - £.	39,000	289,500
DECREASES.		
Warlike Stores (Small Arms, &c.) - - - - -	- -	20,400
Non-Effective Services - - - - -	- -	30,000
TOTAL DECREASES - - - £.		50,400
INCREASE - - - £.	39,000	239,100
NET INCREASE - - - £.278,100.		

EXPLANATIONS of the Differences between the Estimates for 1894-95 and those for 1893-94—*continued.*

VOTE 2.—MEDICAL ESTABLISHMENT - -	The deduction from the estimate of the pay of the Medical Staff made last year on account of casualties has proved to be excessive. There are increases for Civilian Medical Practitioners and for the Corps Pay of the Medical Staff Corps.
Increase - - - <u>£. 1,800.</u>	
VOTE 3.—MILITIA: PAY AND ALLOWANCES -	The increase in the Vote for the Militia is necessitated by the continued increase in the effective strength of the Militia force. An additional Company of the Militia Medical Staff Corps is provided for.
Increase - - - <u>£. 40,000.</u>	
VOTE 4.—YEOMANRY CAVALRY: PAY AND ALLOWANCES.	There is no variation in the amount of the Vote for Yeomanry Cavalry.
VOTE 5.—VOLUNTEER CORPS: PAY AND ALLOWANCES.	The charge for Capitation Allowances to Volunteer Corps has grown owing to an increase in the number of efficient Volunteers. Additional provision is made for Allowances in aid of Volunteer Camps.
Increase - - - <u>£. 18,000.</u>	
VOTE 6.—TRANSPORT AND REMOUNTS - -	The Movements of Troops due in the ensuing year necessitate increased provision under the head of Sea Transport. The estimate for last year was abnormally low. An increased estimate is also necessary for the movement of Troops and Stores in the United Kingdom, but there is a falling off in the cost of Colonial Transport.
Increase - - - <u>£. 8,100.</u>	
VOTE 7.—PROVISIONS, FORAGE AND OTHER SUPPLIES.	The bulk of the increase is on the item for Forage, and is due to a rise in the contract prices, consequent on the bad hay harvest of last year. The price of Coal has also risen, and additional provision has to be made for the cost of Provisions for the force abroad and for the Militia.
Increase - - - <u>£. 109,800.</u>	
VOTE 8.—CLOTHING - - - -	The decrease in the Vote for Clothing is due to a decrease in the quantities of Materials required to be made up into Clothing, and to a fall in prices. The stock of Boots is to be replenished, and additional provision is made for Garments and Head-dresses.
Decrease - - - <u>£. 1,000.</u>	
VOTE 9.—WARLIKE STORES - - -	The decrease in the Vote for Warlike Stores is consequent on a falling off in the orders for Magazine Rifles.
Decrease - - - <u>£. 20,400.</u>	
VOTE 10.—WORKS AND BUILDINGS - -	The increase on the Works Vote is accounted for by the provision for the payment of the terminable annuity to defray the sum borrowed under the Barracks Act.
Increase - - - <u>£. 48,000.</u>	
VOTE 11.—EDUCATIONAL ESTABLISHMENTS -	The Vote for Educational Establishments shows increases due to the issue of an improved scale of pay for Army Schoolmistresses, and to the introduction of a system of Electrical Instruction at the Royal Military Academy.
Increase - - - <u>£. 100.</u>	
VOTE 12.—MISCELLANEOUS EFFECTIVE SERVICES.	A sum of 2,000 <i>l.</i> is added to the item for Medals to meet the cost of the Decoration for the Volunteer Force, and provision is made for the grant of 2,000 <i>l.</i> to the widow of the late General Noble, Superintendent of the Royal Gunpowder Factory.
Increase - - - <u>£. 4,800.</u>	
VOTE 13.—WAR OFFICE - - - -	The decrease in the Vote for the War Office is due to the continued reduction of the Higher Division Establishment.
Decrease - - - <u>£. 587.</u>	
NON-EFFECTIVE SERVICES:	
Net Decrease - - - <u>£. 80,000.</u>	
VOTE 14.—RETIRED PAY, &c. OF OFFICERS.	The Annuities payable for the Commutation of Officers' Pensions show a diminution of 17,450 <i>l.</i> , and the amount receivable from the Indian Government is nearly 18,000 <i>l.</i> more than the amount for 1893-94. The Retired Pay of Departmental Officers shows a decrease of 10,700 <i>l.</i> Increases for the Half-Pay and Retired Pay of Regimental Officers nearly absorb these savings.
Decrease - - - <u>£. 7,800.</u>	
VOTE 15.—PENSIONS, &c. OF MEN -	The Pensions of Non-commissioned Officers and Men are being gradually reduced by the operation of the short service system, and applications to commute pensions are diminishing. There is an additional contribution from the Indian Government.
Decrease - - - <u>£. 80,200.</u>	
VOTE 16.—SUPERANNUATION, &c. -	The average amount of the awards of Civil Superannuation Allowances, mainly to the Wages class in the Manufacturing and Store Establishments, has been greater than that of the pensions saved. A large number of Compensation Allowances have been granted to workmen under the Act of 1890.
Increase - - - <u>£. 8,000.</u>

Paymaster and Clerk (Votes 1 and 7) - - - - -	626	500
£.	810,523	800,133

The amounts under Sub-Heads A., B., C., D., E., L., M., provide also for—

1. Receipt and inspection of Clothing for the

General Post Office and Telegraph Service.
Metropolitan Police, London and Dublin.
Irish Constabulary.
Custom House.
Board of Trade.
Convict Service.
Prison Board.

Colonial Governments.
Office of Works.
English County Constabulary.
Royal Hospital, Chelsea.
Royal Courts of Justice.
Trinity House.
Egyptian Government.

The cost of inspection and labour is, in some cases, charged to the Department concerned, and taken in aid of the Vote.
The Government of India, in addition to all charges, pay 3 l. per cent. upon the value of clothing, to defray establishment expenses.
The Colonial Governments and the Volunteers are charged 5 l. per cent., and the Regular Forces 6 l. per cent., in addition to the contract prices, for clothing supplied on payment. This charge is intended to defray cost of establishment and inland carriage.

2. Receipt, storage, and issue of all printed Forms used by the Army.

---------------	----	-------	--------

C.—CONTINGENT EXPENSES OF THE INSPECTION DEPARTMENT:

Contingencies and Postage - - - -	£.	610	670
-----------------------------------	----	-----	-----

* This salary is personal to the present holder. His successor will receive only 800 l.

¶ Officers on the Inspection Staff are entitled to Lodging Allowance (charged to Vote 7), at the following rates when not provided with quarters:—

Inspectors, 4 s. 6 d. per diem; 1st Class Assistant Inspectors, 4 s. per diem; 2nd Class Assistant Inspectors, 3 s. per diem; Assistant Superintendent for General Stores, 3 s. per diem.

§ This includes this officer's retired pay (724 l. 12 s.).

|| One is a Retired Riding Master, who, in addition to the above pay, is in receipt of retired pay.

¶ This title and salary are personal to the present holder.

(a) This scale is personal to present holders.

(b) Fixed salary without title to pension.

(c) Wages for the repair of arms will in future be provided in the Ordnance Factory Estimate.

The Inspection Department inspects in detail both the Naval and Army Stores, as well as those supplied to the Colonies and India. The total value of the Stores to be so inspected is approximately 4½ millions. Towards the expense of the inspection, which (including 60,000 l. for Stores used in proof and inspection) amounts to over 202,000 l., a sum of 60,000 l. is taken as an Appropriation in Aid on account of Stores inspected for the Navy.

Vote 9.—SUPPLY AND REPAIR OF WARLIKE AND OTHER STORES—continued.

* The Royal Warrant of the 28th March 1893 provides that there shall be no *Establishment* of Lieutenant Generals or Major Generals, and that after the number of General Officers on the *late* Establishment has been reduced, as shown in Article 26—II. of that Warrant, the number of Field Marshals shall not exceed 6; that there shall be 10 Generals on the Establishment, and that the number of Lieutenant Generals and Major Generals shall not (except during a period of war) exceed 20 and 70 respectively.

Until the 1st January 1891 the Establishment of Effective General Officers, in addition to 6 Field Marshals, consisted of 10 Generals, 35 Lieutenant Generals and 95 Major Generals. General Officers specially promoted for distinguished service were shown as supernumerary.

Vote 14.—NON-EFFECTIVE CHARGES FOR OFFICERS, &c.—continued.

									6,123	4	2

N.B.—The rates of Retired Pay, &c., shown in this Vote, are, generally speaking, those provided by the existing Royal Warrant. In some cases, however, the amounts actually drawn exceed these rates, owing to compensation for loss of prospects having been awarded to Officers compulsorily retired. In other cases the rates have been reduced by partial commutation of Retired Pay, &c. In some instances rates awarded under old Warrants are still drawn.

Vote 14.—NON-EFFECTIVE CHARGES FOR OFFICERS, &c.—continued.

N.B.—The following are the rates at which pensions are awarded to the Widows, &c. of Officers under the Royal Warrant of the 28th March 1893:—

To the Widow of a—	£. 120 a year.
Field Marshal or General Officer (including Brigadier General)	
Colonel, if employed as such after the 31st December 1890, or if a Regimental Colonel, not being a General Officer	100 "
Colonel, not employed as such after the 31st December 1890, or Lieutenant Colonel	90 "
Major	70 "
Captain	50 "
Lieutenant, or 2nd Lieutenant	40 "

An addition to these rates of 50 per cent. may be made when the Officers have died from illness contracted during active operations in the field, or in consequence of wounds received in the execution of military duty otherwise than in action. Double rates of pension may be granted when the Officers have been killed in action or have died of wounds received in action; in the case of Widows of General Officers, special pensions may be awarded according to circumstances.

The rates of pension awarded to the Widows of Riding Masters, Quartermasters, and Departmental Officers are governed by the Army or honorary rank of the deceased Officers.

---------------------------	----	-----------	-----	-----------

N.B.—The following are the rates at which Compassionate Allowances are awarded to the Children of deceased Officers under the Royal Warrant of the 22nd March 1893:—

To the Child of a—

Field Marshal or General Officer (including Brigadier General)	£. 20 a year.
Colonel, or Lieutenant Colonel	16 "
Major	14 "
Captain	12 "
Lieutenant, or 2nd Lieutenant	10 "

An addition to these rates of 25 per cent. may be made when the Officers have died from illness contracted during active operations in the field, or in consequence of wounds received in the execution of military duty otherwise than in action. An addition of 50 per cent. may be made when the officers have been killed in action, or have died of wounds received in action. Double rates are granted when the children are motherless, and in great pecuniary distress.

The rates of Compassionate Allowance awarded to the Children of Riding Masters, Quartermasters, and Departmental Officers are governed by the Army or honorary rank of the deceased Officers.

Vote 14. — NON-EFFECTIVE CHARGES FOR OFFICERS, &c.—*continued.*

* Certain lands and premises, the property of Kilmainham Hospital, of the nominal rental value of 67 *l.*, are let to the War Department, but no rent is now paid for them. The charge for the rent before 1889-90 fell upon Vote for Supplies, &c., and a corresponding sum appeared as an Appropriation in Aid of this Vote.

A sum of 60 *l.* a year, Fire Insurance on the buildings of Kilmainham Hospital, is paid out of the revenues of the Hospital, and the amount of Appropriations in Aid is correspondingly reduced.

Vote 16.

SUPERANNUATION, COMPENSATION, COMPASSIONATE ALLOWANCES,
AND GRATUITIES.

I. AN ESTIMATE of the Sum which will be required in the Year ending 31st March 1895,
to defray the Expense of SUPERANNUATION, COMPENSATION, and COMPASSIONATE
ALLOWANCES and GRATUITIES.

One Hundred and Sixty-Four Thousand Seven Hundred Pounds.

* Some of the Officers transferred from the late Commissariat and Transport Staff are in receipt of higher Rates of Pay than those specified.

† These Officers, being Colonial Governors, receive no Staff Pay from Army Funds.

‡ As this Officer is also Governor of Malta, a part only of his Salary is derived from Army Funds; the remainder is paid by the Government of Malta.

(P. a.) Position Artillery Corps.

(P. 1.) This Court has One Battery of Position on charge.

(P.2.) This Corps has Two Batteries of Position on charge.

(P. 3.) This Corps has Three Batteries of Position on charge.

In addition to the establishment of Subalterns, Supernumeraries, to complete the number of officers of that rank to two for each unit, will be allowed for each corps.

† In addition to the establishment of Medical Officers given in this column, additional Surgeon-Lieutenants may be appointed, according to the requirements of the service, under para. 64 of the Volunteer Regulations, 1901.

6 An additional Lieutenant Colonel, as Commandant of both Corps, is allowed temporarily.

• Performance on a variety of tasks is significantly better than on a single task

* Including Cyclist Corps and the Bermuda Corps.

† Adjutants of Volunteer Corps who are officers on the Full Pay List of the Regular Army receive, as a rule, the pay of their rank. The Adjutant of the Light Horse Corps and Adjutants who are in receipt of half pay, or retired pay, receive pay at the rate of 10s. a day. Lieutenants who are Adjutants of Artillery Corps receive 12s. 6d. a day, and Captains who are Adjutants of Artillery Corps receive 16s. a day.

‡ According to rank.

§ Non-commissioned Officers serving on their Army engagements receive, generally, the pay of their rank. Some pensioners appointed under old regulations are still serving, and receive 2s. 4d. a day in addition to their pension.

|| The clothing of Instructors serving on their Army engagements and attached to Volunteer Artillery or Engineer Corps, or to Volunteer Rifle Corps clothed in scarlet or green, is provided for in Vote 8.

* Table money is granted to the General Officer Commanding in certain large Commands to meet the expenses of necessary hospitality. The amounts, and the stations at which they are given, are detailed in the column for Table money, pp. 127, 129, of the Estimates.
General Officers Commanding, who occupy unfurnished quarters, receive furniture allowance at rates varying from 11 s. to 5 s. 6 d. a day, according to the rank of the Officers.

Forage Allowance.—Forage allowance is governed by the average contract rates obtaining in the several military districts, plus 20 per cent. to meet the additional cost of buying retail. In these tables the calculation is made at 1 s. 10 d. a ration.
Stabling Allowance.—Stable allowance is granted at the rate of 9 d. for the first horse, and 6 d. per horse after the first.
Fuel and Light Allowance.—The rate of allowance for fuel and light depends on the district in which the Officer is serving, and varies with the season of the year and the number of rooms to which the Officer may be entitled. The rates shown in the tables are those for Aldershot, which are about the average for other Districts.

APPENDIX, No. 20.

STATEMENT showing the AMOUNTS included in the ARMY ESTIMATES, 1894-95,
for MILITARY PURPOSES in the COLONIES and in EGYPT.

(The probable REPAYMENTS by the several Colonies in the same Account are
shown on page 31.)

Note.—The following Statement showing the Amounts included in the Army Estimates for Military Purposes in the Colonies is *exclusive* of the cost of Arms, Accoutrements, Barrack, Hospital, and other Stores, the greater portion of which is supplied from this Country, and the value of which cannot now be stated; it is also *exclusive* of any proportion of Recruiting Expenses at Home, Head Quarter Administrative Expenses, Sea Transport, and Non-effective Charges. Expenditure incurred under the Imperial Defence Act and the Barracks Act is not included.

The Establishment at each Station of the various Departments of the Army is shown in detail (together with other particulars) in the several Appendices of the Estimates; the Regimental Establishments are detailed on page 16.

Examined,
Charles J. Toy.

J. E. Sage,
Manager.

REPORT OF THE COMPTROLLER AND AUDITOR GENERAL
UPON THE
ACCOUNTS OF THE ROYAL ARMY CLOTHING FACTORY,
FOR THE YEAR 1892-93.

[Prepared and Submitted in accordance with Act 52 & 53 Vict. c. 31, s. 1.]

Test Examination of Accounts, 1892-93.

1. THE test examination of the Army Clothing Factory Accounts for the year 1892-93 has proceeded on the same lines as in previous years.

2. The wages, amounting to 66,743*l.* 9*s.* 4*d.*, agree with the amount charged in the Appropriation Account. The value of the Materials issued to the Factory from the Store Department is stated to have been 204,920*l.* 5*s.* 1*d.*, less remnants returned into Store and credited in the Account to the amount of 4,680*l.* 12*s.* 5*d.*, the net amount of 200,239*l.* 12*s.* 8*d.* agreeing with the sum debited under this head of Materials, as shown in the Appropriation Account.

3. It will be observed that the Balance Sheet includes a debit under the head of "Materials, &c., Charged Indirectly," of 43*l.* 0*s.* 2*d.*. Included in this sum is an amount of 41*l.* 14*s.*, being the difference between the value of a deficiency of Part-worn Great-coats in the hands of the Factory and the value of a net excess of New Great-coats found in the Factory Store. I have asked for an explanation of the circumstances under which a Store Surplus has been set off against a Factory Deficiency, but sufficient time has not yet elapsed for a reply to have been received.

C. L. Ryan,
Comptroller General of the Receipt and Issue
of Her Majesty's Exchequer, and
Auditor General of Public Accounts.

Exchequer and Audit Department,
20 March 1894.

ARMY (ORDNANCE FACTORIES).

ORDNANCE FACTORIES ESTIMATE,

1894-95.

I. AN ESTIMATE of the Sum required in the Year ending 31st March 1895, to defray the Expense of the **ORDNANCE FACTORIES**, the Cost of the Productions of which will be charged to the Army, Navy, and Indian and Colonial Governments, &c.

One Hundred Pounds.

II. SUB-HEADS under which this Vote will be accounted for.

	1894-95.	1893-94.	INCREASE.	DECREASE.

ARMY (ORDNANCE FACTORIES)

1892-93.

STATEMENT OF EXCESSES.

A STATEMENT of the SUM required to be VOTED in order to make good the EXCESS on the GRANT for the Expense of the ORDNANCE FACTORIES, for the Year ended 31st March 1893.

One Hundred Pounds.

Note.—The excess of actual over estimated Appropriations-in-Aid for Ordnance Factory Services for the same year (*See* House of Commons Paper 518 of 1894), amounts to 103,450*l.* 5*s.* 7*d.*

STATEMENT of the Amount by which the Vote for the Expense of the ORDNANCE FACTORIES, in the Year ended 31st March 1893, was exceeded as regards GROSS EXPENDITURE.

Page of Appropriation Account.		Amounts Estimated.	Actual Expenditure.	Sum by which Actual Gross Expenditure Exceeded the Estimate.
		£.	£. s. d.	£. s. d.
	Gross Expenditure - - - -	2,298,894	2,399,926 8 8	101,032 8 8
2	Abate,—			
	Out of the excess of actual Appropriations-in-Aid - - - - -	—	—	100,982 8 8
	(See Note above.)			
	AMOUNT to be VOTED - - - £.			100 - -

EXPLANATION.

The Orders received from the Indian Government were larger than were anticipated when the original Estimate was framed, and involved heavy payments for Materials and Stores. This excess expenditure was met by a corresponding increase in the Appropriations-in-Aid received from that Government.

War Office,
16 March 1894.}

HENRY CAMPBELL-BANNERMAN.

REPORT OF THE COMPTROLLER AND AUDITOR GENERAL
UPON THE
ACCOUNTS OF THE ORDNANCE FACTORIES OF THE ARMY,
FOR THE YEAR 1892-93.

[Prepared and Submitted in accordance with Act 52 & 53 Vict. c. 31, s. 1.]

General Remarks.

1. It was stated at the Public Accounts Committee in April 1893 by the Director General of Ordnance Factories, that the Report of the Departmental Committee appointed in February 1890 to consider the questions raised in connection with the system of accounting at the Ordnance Factories could not be expected for two years. Several important matters in regard to this system, some of which are referred to in the succeeding paragraphs of this Report, still await the decision of the Committee referred to, and in the meanwhile the financial records of the working of the Factories remain not fully satisfactory.

Report of Departmental Committee on Factory Accounts.
Evidence before Public Accounts Committee, Questions 837-841, 850, 851, 852, 853.

Outstanding Questions.

2. On the introduction of the new system of work-takers at the Royal Laboratory it was expected that external check would be applied to all productive work, whether day-work or piece-work. The question of its application to the former class of production is unsettled and has been referred to the Departmental Committee; it forms one of the items of imperfect accounting still left uncorrected, and the allocation of day-work to items of production remains without independent verification.

Work-takers not yet extended to day-work.

3. In paragraph 3 of my Report on the Account for the year 1891-92, under the heading of the Royal Gun Factory, I drew attention to the absence of certain necessary abstracts which should exist for the purpose of connecting the records of piece-work done and recorded for cost purposes with the records of articles produced; and I stated that the preparation of such abstracts was under consideration by the War Office. Satisfactory assurances upon this point were subsequently given by the Director General of Ordnance Factories in his evidence before the Public Accounts Committee. In December last I again brought the subject under the notice of the War Office in connection with the Accounts of the Royal Laboratory and I have been informed, under date of 26th January 1894, that the full significance of my suggestions had not been appreciated, and that the subject of whether, to what extent, and in what way the correspondence required should be effected was then under consideration as a general question of Factory Accounts. No definite advance towards a settlement of this question appears to have been made, and in the meanwhile (except in the case of the larger forgings in the Royal Gun Factory), my Department has no means of ascertaining that articles paid for in the various stages of manufacture are duly recorded in the Store Ledgers of the Factories.

Absence of connection between payments for piece-work and production.
Questions 856-859.

Royal Gun Factory.

4. The account-keeping of the Royal Gun Factory was transferred to the Central Office at Woolwich Arsenal on 1st April 1892, and this may be considered as the first step towards a gradual centralisation of Factory Accounts, from which improvement may be expected to follow.

Transfer of Accounts to Central Office.

5. It was anticipated that the stock-taking of the semi-manufactured Remain on the 31st March 1892, referred to in paragraph 4 of my Report for 1891-92, would have produced a satisfactory starting-point for future transactions. It has, however, been found that, in the case of finished articles, the numbers issued during 1892-93, together with the numbers in remain on 31st March 1893, were, in numerous instances, in excess of those recorded as produced within the year, when added to the remain as stated on 1st April 1892. In reply to a request for an explanation of these discrepancies I was informed that investigation had failed to show how the differences had arisen, but that they were attributed to errors in the earlier remain, the numbers of which had been altered accordingly in order to balance the accounts. The result of this alteration

Stock-taking of semi-manufactured Remain on 31st March 1892.

has been an addition to the numbers of articles, while the total cost of production remained unchanged, and a consequent reduction in the average price of issue of such articles has taken place, owing to the distribution of the same total cost over a larger number of items, with the effect (in cases where the issue in 1892-93 has not been to the same service as in the previous year) of a cheapening of the supplies to one service in 1892-93 at the expense of a different service in 1891-92. The following are examples of the variation in price of a few articles which has resulted from this cause:—

	Issue Rate, 1891-92.	Cost of Production, 1892-93.	Issue Rate, 1892-93.
	£. s. d.	£. s. d.	£. s. d.
Locks, electric - - - -	52 - -	42 8 5	32 2 1½
„ B - - - -	45 9 2	36 17 9	34 10 5½
Discs, pad - - - -	18 3 -	20 13 11	12 10 6
Spring strikers - - - -	- - 11½	- - 6	- - 1½

Unfinished articles.
Evidence before
Public Accounts
Committee,
Questions 860-864.

In the case of unfinished articles, to which reference was made in the evidence given before the Public Accounts Committee last year, it would appear that, as the errors in the Remain there referred to were discovered by stock-taking, this check might with advantage have been applied to the Remain existing on 31st March 1893; but this does not appear to have been done.

Allocation of
semi-manufacture
between Services.

6. The allocation to the different repaying services of the value of unfinished articles at the end of the financial year has been based, as regards a large proportion of the productions of this Factory, on the Piece-work Ledgers. This mode of arriving at the value of semi-manufactured articles shows an improvement on previous years, and brings it within the scope of effective audit, which could not be applied to the system of allocation by estimate which previously prevailed.

With regard, however, to the remainder, the allocation of values is based on estimate as heretofore, and I have inquired whether there is any objection to extending the improved method to the whole output of this Factory, as in the case of the Royal Carriage Department, and have been informed, under date of 18th July 1893, that the Secretary of State is not without hope that in course of time it might be found possible to do this. The subject is of importance as bearing on a more exact distribution of charge within each year against Army and Navy Votes and India, respectively, in respect of semi-manufactures.

Adjustments of
half-wrought
material in
Departmental
Store Ledgers.

7. My attention has been called to certain adjustments in the Gun Factory Store Ledgers, as regards half-wrought material, which seem to indicate that the system of arriving at the quantities of iron, steel, &c., issued for executing orders, is imperfect. At present it appears to be the practice to add an estimated 10 per cent. to the weight of the finished forging, for wastage, &c. On taking stock of material at the close of the year, such large discrepancies have been found as to necessitate a further charge to orders through indirect expenditure of about 5,000*l.* The War Office has explained that these adjustments are attributed to the incorrectness of the estimated percentage for wastage, but an analysis of the items shows that the adjustments range from 40 to 120 per cent., which would seem to point to other causes than an under-estimate for wastage, and it may reasonably be supposed that there are possible errors in store accounting. This view seems to be supported by an adjustment on "Iron-rolled forged billets" of 4 tons, 3 cwt., 3 qrs., valued at 92*l.* 2*s.* 6*d.*, an item of stock upon which no issues had been made during the year. This would appear to indicate that the cost of production may have been enhanced by the absorption in 1892-93 of the value of deficiencies in stock attributable to prior years' transactions; and I have inquired whether it is proposed to extend the independent stock-taking by the War Office to these Departmental Stores at the Royal Gun Factory, to which inquiry no reply has yet been received.

Torpedo Factory.

Present mode of
accounting
incomplete.

8. In the absence of a Piece-work Ledger for this Factory no satisfactory connection can be established between the payments for piece-work and the articles produced. The system of work-takers has been introduced from 1st April 1893, but in several respects the present mode of accounting is still incomplete, and the attention of the War Office has been directed to various points in which improvement seems possible.

Royal Laboratory.

9. The system of independent work-takers in this Department has been confined to single-handed piecework, the number of hours worked by day workers, whether engaged on productive or other day work, being still taken by time-keepers while as regards the fellowship shops prices similar to those which existed under the comprehensive price system still continue to be paid for articles produced, the duties of the work-takers being restricted to the distribution of the total earnings among the men according to their ratings. Work-taker system incomplete in 1892-93.

With reference to paragraph 6 of my Report of 1891-92 on the subject of the allocation of labour by work-takers, independent of the Factory, I called the attention of the War Office to a transaction which seemed to indicate that this duty still continued in the hands of the foremen. To this no reply has yet been received.

10. In a communication to the War Office on last year's Account I asked for an explanation of the increased cost of certain shells, notwithstanding the large reduction in the official price, as noted on page 196 of my Report, 1890-91. A reply has since been received, in which it is stated that the increase in price is mainly due to the increased price of steel, but the information at my disposal does not support this view, and to a further communication on the subject no reply has yet been received. Increased Cost of Manufacture of Shells in 1891-92.

11. I have to observe that the Production Voucher of this year includes—

	£.	s.	d.
Articles embraced under "Projectiles, Iron," to the value of	56,198	17	3½
and under "Projectiles, Steel," to the value of	-	99,705	15 5½
	£. 155,904	12	9½

But in the Cost Ledgers of the Laboratory the amounts recorded against these work-marks during the year were—

	£.	s.	d.
"Projectiles, Iron" - - - - -	41,347	14	6½
"Projectiles, Steel" - - - - -	114,556	18	2½
	£. 155,904	12	9½

showing a transfer of 14,851*l.* 2*s.* 9*d.* from the latter to the former. As the effect of this transfer is to cheapen the cost of the steel articles at the expense of those made of iron, I have asked for an explanation of the transfer, and for the authority under which it was made; but there has not been time for a reply to be received.

Balance Sheet.

12. In accordance with the directions of the Public Accounts Committee of last year, Second Report, 1893, para. 20-22, the sum of 12,394*l.* 5*s.* 1*d.*, irregularly charged to semi-manufactures in 1891-92, has been transferred from semi-manufactures at the close of 1891-92 to Stores in Stock, and the balances carried forward on the 1st April 1892 have been altered accordingly. The question of the means to be adopted to prevent in future irregular charges of this nature, by way of transfer at the close of the year, remains unsettled, but the Treasury Minute of 24th November 1893 refers to the point in the following terms:—"What the limitations to such transfers should be are not altogether obvious, and my Lords consider that the subject is well deserving of careful investigation, if the Secretary of State still holds that transfers of this kind at the close of the year cannot be dispensed with." Adjustment of Balances from 1891-92.

13. The total amount of Stock in the hands of the Factories shows an increase on the 31st March 1893, as compared with the 31st March 1892, of 10,392*l.* 8*s.* 6*d.* This is practically an increase in the working capital of the Factories, which must almost necessarily vary slightly from year to year. Stores in Stock.

Capital Account.

14. The capital of the Ordnance Factories, as regards Land, Buildings, and Machinery, was 1,531,932*l.* 14*s.* 2½*d.* on the 31st March 1892, and on the 31st March 1893 was 1,536,816*l.* 10*s.* 4½*d.*, showing a net increase of 4,883*l.* 16*s.* 1½*d.* In consequence of the deductions from Capital on account of depreciation of buildings and machinery State of Factory Capital Account.

being in excess of the additions thereto, there was a decrease in the year to the amount of 8,746*l.* 3*s.* 10½*d.*, which was, however, more than covered by transfers without payment between Army and Ordnance Factories, resulting in a net addition to Capital amounting to 13,630*l.* Included in this sum is the value of official quarters, for which rent has hitherto been paid by the Ordnance Factories to the War Department, but which, with Treasury concurrence, has now been brought on capital charge by the Factories.

Transfer from
Buildings to Land,
without Treasury
sanction.

(A.) p. 260.

15. It will be observed in the statement of the Capital Account that a sum of 5,388*l.* 12*s.* 8*d.* has been transferred from Buildings to Land at Enfield, under the circumstances described in the correspondence printed in the Appendix. It appeared to me that, although this transfer did not affect the total value of the capital held by the Factories, the transaction, resulting as it does in a loss of income through depreciation to the Factories, should have received the sanction of the Treasury, and I therefore referred the correspondence in the matter to their Lordships.

Plant for
Magazine Rifle.
Extension of time
for recovery of
Expenditure.

Report of
Comptroller and
Auditor General,
1890-91,
paragraph 29.

16. In paragraph 29 of my Report on the Ordnance Factories for the year 1889-90, I referred to the financial arrangements settled between the War Office and the Treasury, whereby the cost of special machinery for the production of the Magazine Rifle at Enfield and Birmingham, amounting to 92,447*l.* 16*s.* 10*d.*, was charged to Capital Account. Recovery of this amount was to be obtained in six years by a charge to production of 10 per cent. for the first year 1889-90, of 20 per cent. in each of the next four years, and of 10 per cent. in the last year, 1894-95. The output of rifles in this period of six years, forming the "first equipment," and intended to bear the burden of repayment of this sum (increased in 1891-92 to 102,687*l.* 13*s.* 10*d.*) was estimated at 400,000. But this estimated number has now been increased to 484,601, and with the consent of the Treasury, the period during which annual repayments are to be charged to Production has been extended by two years, the last year being 1896-97 instead of 1894-95 as originally fixed. Sums amounting to 46,223*l.* 18*s.* 5*d.* having been charged in the three years ending 1891-92, there remained to be recovered a sum of 56,463*l.* 15*s.* 5*d.*, to which is to be added an additional expenditure on machinery in the year 1892-93 of 7,481*l.* 18*s.* 4*d.*, making a total of 63,945*l.* 13*s.* 9*d.* Of this amount the sum of 12,789*l.* 2*s.* 9*d.* has been recovered in the year 1892-93, and the balance of 51,156*l.* 11*s.* will be repaid by four equal annual instalments from 1893-94 to 1896-97, unless in the meantime a further change of plan be decided upon. Copies of the correspondence on this subject will be found printed in the Appendix.

(B.) pp. 261-263.

Stock-taking.

Increased
Stock-taking in
1892-93.

17. In 1892-93 independent test Stock-takings were made on behalf of the War Office at the Out-Factories at Waltham, Enfield, and Sparkbrook, as well as at Woolwich, the total value of the Stock taken being much larger than in previous years. At Woolwich, the articles selected for verification were taken from a list of about 116 classes of articles in Remain on 31st March 1892, which did not appear to have been independently verified for three years preceding. The value of the 11 classes of articles chosen was 16,590*l.* out of a total value at Woolwich of 295,160*l.* This proportion it might be desirable to increase, if possible, in future years. As regards the Out-Factories, a test has been applied to a much larger proportion of the Remain, Stock having been taken to the extent of more than two-thirds of a value of 156,000*l.*

Result of Stock-
taking.

The result of Stock-taking, both Departmentally and independently by the War Office, was that surpluses were found at Woolwich to a value of 416*l.* 2*s.* 6*d.* and at Enfield of 18*l.* 4*s.* 9*d.*, while deficiencies appeared of 232*l.* 11*s.* 6½*d.* and 12*l.* 15*s.* 7*d.* respectively.

Comparison of Factory Cost with Contractors' Prices.

Present position of
this question.

Report of
Comptroller and
Auditor General,
1891-92,
paragraph 21.

Second Report of
Public Accounts
Committee, 1893,
paragraph 26.

18. I referred in paragraph 21 of the Report on the Account for 1891-2 to communications which had passed between my Department, the War Office, and the Treasury on the subject of making comparisons between the Contract prices of articles and the cost of similar articles made in the Ordnance Factories. This correspondence was printed in the Appendix to my Report, and it will be seen in the concluding letter of the series (Treasury Letter dated 18 January 1893) that the Treasury, for reasons therein stated, attached great importance to this comparison being made. A similar view was expressed by the Public Accounts Committee in paragraph 26 of their Second Report for the year 1893.

To carry out this comparison it was practically necessary that the War Office should co-operate by supplying my Department with particulars of articles supplied both by Contractors and the Factories, so that my officers might institute a properly based comparison between the prices of purchased and factory-made articles

respectively. The War Office, however, in a letter to the Treasury, dated 12 June 1893, laid down certain limitations within which they would be prepared to furnish the requisite information, viz.:—"That the rule which treats contractors' prices as confidential, as well as other considerations of a business character, made it extremely inexpedient that such prices, or the comparisons relating thereto, should be made public; subject to this condition, information in reply to specific inquiries will be readily furnished to the Audit Office." This limitation was not referred to by the Accountant General of the Army when the subject was under discussion before the Public Accounts Committee in April 1893, and on receipt of a copy of this Letter I pointed out to their Lordships that the condition imposed would render the information valueless for the purposes of Parliament, for whom it was primarily required. The Treasury, in reply, suggested in a letter dated 11th July 1893 that I should make the comparisons of prices, and should report to Parliament that I had done so, and that I should also report whether the results appeared to me satisfactory or otherwise; stating at the same time that I must withhold particulars in deference to the objections of the War Office. It appeared to me, however, that the advantages to be expected from the intervention of my Department under the restrictive conditions referred to were not sufficiently weighty to countervail the grave disadvantages of an arrangement which would limit the scope of my Report to Parliament, on whose behalf and for whose information I was exclusively acting. Under these circumstances, no further steps have been taken by my Department in the matter. The correspondence on the subject will be found printed in the Appendix.

(C.) pp. 263-265.

Assets and Liabilities.

19. This Statement is for the first time included in the Factory Accounts in compliance with a request of the Treasury. An error appears, however, to have been made in compiling this statement, a sum of 386*l.* 4*s.* 3*d.* having been treated as an asset instead of as a liability, thereby affecting the balance on the account to be carried forward next year.

New Statement showing Factory Capital.

Agreement between Credits in the Balance Sheet and those shown under Appropriations-in-Aid of the Vote.

20. I append the usual Statement showing the agreement between the Credits in the Balance Sheet and those recorded in the Appropriation Account of the Ordnance Factories.

Agreement between Balance Sheet and Appropriations-in-Aid.

C. L. Ryan,
Comptroller General of the Receipt and Issue
of Her Majesty's Exchequer, and
Auditor General of Public Accounts.

Exchequer and Audit Department,
20 March 1894.

(D.) p. 266.

CORRESPONDENCE referred to in the foregoing REPORT.

(A.)

(No. 264.)

Exchequer and Audit Department,
1 March 1894.

Sir,

(A. 1.) (A. 2.)

I AM directed by the Comptroller and Auditor General to forward for the consideration of the Lords Commissioners of Her Majesty's Treasury copies of correspondence which has taken place between this Department and the War Office on the subject of a transfer between the values of land and buildings respectively, at Enfield, as shown in the Capital Account of the Ordnance Factories for the year 1892-93, and I am to request that he may be favoured with their Lordships' view of this transaction, which, it will be seen, has not been submitted for their sanction as would appear necessary with reference to their letter to the War Office, dated 26th April 1893 (3049-1893), on the subject of alterations in the capital values of Land, Buildings, Plant, and Stock of the Ordnance Factories.

The Secretary of Her Majesty's Treasury.

I have, &c.
(signed) F. Phillips.

(A. 1.)

(No. 104.)

Exchequer and Audit Department,
23 January 1894.

Sir,

THE attention of the Comptroller and Auditor General has been directed, in the course of the examination of the Capital Account of the Royal Small Arms Factory at Enfield, to certain alterations which have been made in the values of land and buildings respectively as compared with the amounts at which they stood for the previous year. A sum of 5,388*l.* 12*s.* 8*d.* has been transferred from the value of buildings to that of land, thus increasing by that amount the book value of the latter, while depreciating by a like amount the book value of the former. It is understood that this alteration has been made in order to rectify an erroneous treatment of the original land value prior to the year 1867, both land and buildings having been before that date included in one amount, from which a percentage of depreciation was annually written off. Without expressing an opinion whether it is advisable at the present time, when the Ordnance Factories have been constituted on a new basis, to re-open transactions which from the lapse of time might reasonably have been left undisturbed, it is pointed out that while increasing the value of the land has no financial bearing on the Factories, to decrease the value of the buildings also involves the reduction of the annual depreciation thereon chargeable against the productions of the year.

Moreover, while no evidence has been furnished that any excess value was assigned to buildings before 1867, it would appear that an excess of the amount in question (5,388*l.* 12*s.* 8*d.*) would at the present time, by the subtraction of annual percentage, amount to no more than 1,494*l.*

Under these circumstances the Comptroller and Auditor General hesitates to concur in the proposed transfer until the question which affects the receipts of the Ordnance Factories has been submitted to the Commissioners of Her Majesty's Treasury for their Lordships' consideration and decision.

The Under Secretary of State for War,
War Office.I have, &c.
(signed) F. Phillips.

(A. 2.)

(77—Audit—172.)

War Office, Pall Mall, S.W.,
21 February 1894.

Sir,

I AM directed by Mr. Secretary Campbell-Bannerman to acknowledge the receipt of your letter of the 23rd ultimo (No. 104), on the subject of a transfer of a sum of 5,388*l.* from buildings to land in the Capital Account of the Small Arms Factory at Enfield, and to reply to the remarks therein contained as follows:—

It was advisable to make a correction in this case because, as was explained in the War Office papers (70—General No.—7531), in which the subject is dealt with, to have left the account undisturbed would have had the result of leaving the land of the Factory, after the transfer of the rifle range and cottage land, at a figure obviously too low.

When the separation of land and buildings was made in 1867 the value assigned to the latter was as much too high as that assigned to the former was too low. The productions of the Factory have each year since that date been overcharged for depreciation on buildings in consequence. The value of buildings remaining on the books, viz., the original cost less the amount written off, is therefore smaller, and the future annual charges for depreciation correspondingly lower, than would otherwise have been the case.

Had it been proposed to take the alternative course of restoring the value of buildings in the books to its correct calculated figure, with the result of recovering more as depreciation than the buildings had ever cost, Mr. Campbell-Bannerman would probably in that case have thought it necessary to apply for Treasury sanction.

The Comptroller and Auditor General,
Somerset House, W.C.

I have, &c.
(signed) *R. H. Knox.*

(B.)

(15703—93.)

Sir,

Treasury Chambers, 6 November 1893.

I AM directed by the Lords Commissioners of Her Majesty's Treasury to transmit for your information copy of War Office Letters to this Department of the 22nd June, 31st July, 22nd September, and 24th October 1893, and of the Treasury replies of the 30th June, 29th August, 30th September, and 3rd instant, on the subject of the mode of recovering the cost of special preparations for the manufacture of Magazine Rifles.

(B. 1.) to (B. 8.)

The Comptroller and Auditor General.

I have, &c.
(signed) *R. E. Welby.*

(B. 1.)

(77—13—1086.)

Sir,

War Office, Pall Mall, S.W., 22 June 1893.

REFERRING to Treasury letter of the 4th January 1892, No. 19073—91, and to previous correspondence on the mode of distributing the cost of the preparations for the manufacture of the Magazine Rifle at Enfield and Birmingham, I am directed by Mr. Secretary Campbell-Bannerman to acquaint you, for the information of the Lords Commissioners of Her Majesty's Treasury, that the course of events has necessitated further consideration of this subject.

It will be within their Lordships' recollection that they approved two schemes, dealing with the expenditure connected with the Mark I and Mark II Rifles respectively, the principal feature of both schemes being a charge of fixed amount to the rifles produced each year, and the closing of the account at the end of the year 1894—95.

The expectations on which these schemes were based were that the manufacture of what may be called the "first equipment" of magazine rifles for the principal customers of the factories would proceed at an approximately uniform rate and would be completed in 1894—95. Their Lordships did not fail to observe that the scheme was good only on the condition that these expectations were realised; and it now appears that this will not be the case.

The number of rifles ordered from the factories in 1892—93 was considerably smaller than in the earlier years, and it is expected that the "first equipment" will not be completed until 1896—97.

From the progress which has been made in defining and meeting the requirements of the services for these arms it is now possible to foresee the course this matter is likely to take in the next four years; and it is estimated that the factories will get orders which will enable them to turn out rifles throughout that period at a rate approximately the same as in the year 1892—93.

Mr. Campbell-Bannerman accordingly proposes to divide the sum remaining to be recovered for these special preparations from 1st April 1892 into five equal portions, and charge them to the five years 1892—97. The total sum is about 65,000*l.*, giving an annual charge of 13,000*l.*

I am to request you to move their Lordships to signify their approval of this modification of the original plan.

The Secretary to the Treasury.

I have, &c.
(signed) *Thos. C. B. Cave.*

(B. 2.)

10006—93.

Sir,

Treasury Chambers,
30 June 1893.

I HAVE laid before the Lords Commissioners of Her Majesty's Treasury Mr. Cave's letter of the 22nd instant, 77—13—1086, from which they learn that the scheme sanctioned by this Board in 1891—92, affecting the cost of the preparations for manufacturing the new Magazine Rifle (Mark I and Mark II) is no longer capable of realisation, and that the first equipment of these weapons will not, it is expected, be completed until 1896—97, instead of 1894—95 as originally contemplated.

Their Lordships would remind the Secretary of State that the system of a fixed percentage recovery of the cost of this plant in the six years 1889—90 to 1894—95 was accepted by this Board because it was anticipated that the Magazine Rifles would be manufactured in a ratio corresponding to that percentage, and would be completed in 1894—5: in other words that the cost would be evenly spread over some 400,000 rifles, which were intended to form the "first equipment."

If the "First Equipment" has increased in quantity, or its manufacture will extend over a longer period (viz. to 1896—97) there may be fair grounds for approving the proposals now made; but so far as their Lordships understand the published Ordnance Factories Accounts, about 225,000 to 230,000 of the originally estimated 400,000 rifles were manufactured in the first half of the original period, besides parts of rifles; and, if so, the charge has not been evenly spread over the period.

(B 6.)

(14271—93.)

Sir,

Treasury Chambers, 30 September 1893.

THE Lords Commissioners of Her Majesty's Treasury request, in reply to Mr. De la Bère's letter of the 22nd instant, respecting the recovery of the cost of special preparations for the manufacture of the Magazine Rifle, that you will move Mr. Secretary Campbell-Bannerman to cause them to be furnished with a statement showing for each year of the whole period from 1889-90 to 1896-97—(1.) The sum that would be recovered under the original scheme of 1891. (2.) The assumed Output of Rifles under that Scheme. (3.) The actual sum recovered, for past years, and the sum now proposed to be recovered for current and future years. (4.) The actual output of Rifles for past years, and the estimated output for current and future years.

The Financial Secretary, War Office.

I have, &c.
(signed) *Frank Mowatt.*

(B 7.)

(77—13—1091.)

Sir,

War Office, Pall Mall, S.W., 24 October 1893.

I AM directed by Mr. Secretary Campbell-Bannerman to acknowledge the receipt of your letter of the 30th ultimo, No. 14,271—93, asking for certain information with regard to the recovery of the cost of special preparations for the manufacture of Magazine Rifles, and in reply, to send you the enclosed statement.

The Secretary to the Treasury.

I have, &c.
(signed) *R. H. Knox.*

(B. 8.)

(15,703—93.)

Sir,

Treasury Chambers, 3 November 1893.

THE Lords Commissioners of Her Majesty's Treasury have had before them Mr. Knox's letter of the 24th ultimo, in further explanation of the revised scheme proposed by Mr. Secretary Campbell-Bannerman for recovering the cost of the first equipment of Magazine Rifles.

The scheme sanctioned by the Treasury in 1891 assumed that an equipment of 400,000 Rifles would be supplied, in certain proportions, each year in the six years 1889-90 to 1894-95; and the recovery of the cost, estimated at 110,447*l.*, was distributed accordingly over those years.

It now appears that the equipment will consist of 484,601 Rifles, that the cost will be 110,167*l.*, and that the supply will be spread over the eight years 1889-90 to 1896-97. For the first three years of this period recoveries have been made, in accordance with the original scheme, to an amount of 46,222*l.*, the output of Rifles during those three years having been 235,728 instead of 200,000 as originally estimated. But for the five remaining years of the period it is now calculated that the output will average about 50,000 Rifles a year; and it is therefore proposed to distribute the recovery of the remainder of the cost in equal sums of 12,789*l.* over the whole of those five years, 1892-93 to 1896-97.

My Lords consent to this arrangement in the hope that the revised Estimate has been carefully prepared, and will prove trustworthy.

The Financial Secretary, War Office.

I have, &c.
(signed) *R. E. Welby.*

(C.)

(56—93.)

Sir,

Treasury Chambers, 18 January 1893.

The Lords Commissioners of Her Majesty's Treasury have had before them Mr. Phillips's letter of the 31st ultimo, and its enclosures, respecting the comparison of Contractors' prices with the cost prices shown in the Production Vouchers of the Ordnance Factories.

The subject is one in which my Lords take a special interest; and were it to be allowed to drop out of sight they believe that one of the main justifications for the existence of the Ordnance Factories, with their costly establishments and elaborate accounts, would be lost.

If it be asked why the public should take the trouble and responsibility of manufacturing for themselves articles which various competing tradesmen are eager to manufacture for them, the chief answer is that it is expedient to provide a check upon the Trade by making certain things in Government Factories as well as buying them from private dealers. But if this check cannot be brought to proof it is useless.

O. I.

M M

My

My Lords have been very glad to see that you have been for some time alive to the importance of this comparison as the Treasury has been. The idea is no novelty. When the question of transferring the provision for Naval Armaments from Army to Navy Votes was considered by an Inter-Departmental Committee in 1886, they drew attention, in paragraph 9 of their Report of 11th November, to the importance of allowing the Admiralty to resort to the private trade for articles which could be obtained more cheaply from that source, and to the fact that the competition of private firms is one of the chief means of securing the economical working of the Ordnance Factories. Neither of these ends is attainable if comparison be impossible. When the Ordnance Factories were placed on a commercial or self-supporting basis in 1888, one of the principal motives, so far as the Treasury was concerned, was the facility it would afford for comparison with other manufacturers; and my Lords believe that this view has been largely shared by the Public Accounts Committee. They may refer, in evidence of this, to Treasury Minutes of 10th January 1891, on Section 11 of the Fifth Report of 1890; of 5th January 1892, on Section 22 of the Third Report of 1891; and of 5th November last, on Section 52 of Fourth Report of 1892.

My Lords are aware that anything like a fair comparison requires great care to include all charges of production, and to distribute them justly, and to secure precise similarity between the articles compared. It is easy to make out that the Ordnance Factories are cheap, if interest on capital, depreciation of machinery, or certain establishment charges be excluded from view; or are extravagant, if comparison be confined to articles of which only a small number has been made, and which have entailed a heavy outlay on plant. A true comparison can only be arrived at by degrees. What your officers have already done is certain to be useful if only as a step to something better; and my Lords hope that the War Department will co-operate with them in endeavouring to improve upon it.

Their Lordships are asking the War Department to furnish you in each year with the contract prices of any purchased articles which can be fairly compared with others of the same kind produced in the Ordnance Factories.

The Comptroller and Auditor General.

I have, &c.
(signed) R. E. Welby.

(C. 1.)

(9403—93.)

Sir,

Treasury Chambers, 19 June 1893.

In continuation of this Board's letter, dated the 18th January last (56), I am directed by the Lords Commissioners of Her Majesty's Treasury to transmit to you herewith a copy of a letter recently received from the War Office specifying the limits within which that Department will be happy to furnish you with information enabling you to institute comparisons between contract prices for stores and the cost of similar articles made in the Ordnance Factories.

The Comptroller and Auditor General.

I have, &c.
(signed) R. E. Welby.

(C. 2.)

(70—G. No. Aud.—446.)

Sir,

War Office, Pall Mall, S W.,
12 June 1893.

I AM directed by Mr. Secretary Campbell-Bannerman to acknowledge the receipt of your letter of the 18th of January last, No. 56—93, asking him to take steps to furnish the Comptroller and Auditor General with certain information respecting contract prices for stores, and to assist that officer in making comparisons between such prices and the cost of similar articles made in the Ordnance Factories.

The making of such comparisons has long been a part of the regular routine of the War Office, and Mr. Campbell-Bannerman will always be prepared to satisfy the Lords Commissioners of Her Majesty's Treasury as regards the results so obtained. He directs me, however, to point out that the rule which treats contractors' prices as confidential, as well as other considerations of a business character, make it extremely inexpedient that such prices, or the comparisons relating thereto, should be made public.

Subject to this condition, information in reply to specific inquiries will be readily furnished to the Audit Office.

The Secretary to the Treasury.

I have, &c.
(signed) R. H. Knox.

(C. 3.)

(No. 625.)

Sir,

Exchequer and Audit Department,
30 June 1893.

I AM directed by the Comptroller and Auditor General to acknowledge the receipt of Sir R. E. Welby's letter of the 19th instant, No. 9403—93, enclosing a copy of a letter from the War Office specifying the limits within which that Department will be prepared to furnish information to enable the Comptroller and Auditor General to institute comparisons between Contract prices for Stores and the cost of similar articles made in the Ordnance Factories.

The conditions upon which the information will be furnished are that the Contractors' prices and the comparisons relating thereto should not be made public.

The information which it is thus proposed to furnish on confidential conditions is, as their Lordships are aware, exclusively required by the Comptroller and Auditor General on behalf and for the information of the House of Commons, the object being that of a comparison of prices the importance of which has been repeatedly recognised both by the Public Accounts Committee and by their Lordships.

Compliance with the condition prescribed by the War Office will, therefore, in his opinion, render the information valueless for this purpose.

The Secretary to the Treasury.

I have, &c.
(signed) F. Phillips.

(C. 4.)

(10441—93.)

Sir,

Treasury Chambers, 11 July 1893.

IN reply to your letter of the 30th ultimo, respecting the comparison of contract prices with the cost of producing articles in the Ordnance Factories, the Lords Commissioners of Her Majesty's Treasury desire me to say that the value of this comparison for administrative purposes is just as great whether the results are published or not.

The War Office say in their letter of the 12th ultimo, that the making of such comparisons has long been a part of their regular routine; but my Lords think it very important that they should be made also by an independent department having access to and familiar with the necessary records, and no Department except your own answers to this description.

Their Lordships suggest that you should make the comparison as regards such articles as you may select during the current year, and that you should report to Parliament that you have done so, and whether the results appear to you satisfactory or otherwise, but state that you must withhold particulars in deference to the objections of the War Department.

An opportunity will thus be given to the Public Accounts Committee of considering whether those objections are valid.

The Comptroller and Auditor General.

I have, &c.
(signed) *R. E. Welby.*

(C. 5.)

(No. 703.)

Sir,

Exchequer and Audit Department,
21 October 1893.

I AM directed by the Comptroller and Auditor General to acknowledge the receipt of Sir R. E. Welby's letter of the 11th July last (No. 10,441—93), in which it is suggested by the Lords Commissioners of Her Majesty's Treasury that a comparison should be made by this Department of the contract prices of certain articles, with the cost of producing similar articles in the Ordnance Factories, and that the general results of such comparison should be reported to Parliament, with a statement that particulars must be withheld in deference to the objections of the War Department.

I am to state in reply, for the information of their Lordships, that any advantage which might be expected to accrue from the intervention of his Department under the restrictive conditions imposed by the War Department would not, in the opinion of the Comptroller and Auditor General, countervail the grave disadvantages of an arrangement which would materially limit the scope of his Report to Parliament, on whose behalf and for whose information he is exclusively acting. He, therefore, feels great hesitation in undertaking the duty in question while those restrictions are maintained.

The Secretary to the Treasury.

I have, &c.
(signed) *F. Phillips.*

Acquisition of Maplin Sands: Arbitrator's Award, and Incidental Expenses - - - - -	60,000	
TOTAL OF SUPPLEMENTARY ESTIMATE - - - £.	195,000	195,000

EXPLANATION.

The supplementary amounts required for the Militia are due to the number of effectives having increased to a total considerably in excess of the number anticipated when the original Estimate was compiled.

The expenditure for provisions will exceed the original Estimate in consequence of the strength of the Militia having increased beyond the number provided for, and of the sum taken for foreign garrisons having proved insufficient.

The further amount required for forage results from increased prices.

The arbitrator's award as to the sum payable in respect of Maplin Sands had not been given when the original Estimates were framed, and no provision, therefore, was made in those Estimates for the expenditure.

90, WEST NILE STREET, GLASGOW; OR
HODGES, FIGGIS, & Co., Limited, 104, GRAFTON STREET, DUBLIN.

Memorandum of the Secretary of State relating to the Army Estimates, 1894-95.

The Estimates for the year 1893-94, with the Ordnance Factories Vote, amounted to 17,802,900*l.*; those for the year 1894-95 stand at 18,081,000*l.*, the increase being 278,100*l.*

With reference to the statement in the memorandum presented with last year's Estimates, that measures had been adopted to equalize the number of battalions at home and abroad, I regret to say that circumstances have not yet admitted of a reduction of the force in Egypt sufficient to effect this most desirable result.

I have again to report most satisfactory progress in recruiting for the Army. The Establishments were so full at the commencement of the year 1893 that it was found possible for a time to dispense with the enlistment of "specials," and the standard for enlistment in the Foot Guards was raised to 5 feet 9 inches.

The total number of Effectives (including India) on 1st January, 1894, was 219,400, being 2,301 in excess of Establishment.

Vote 1 shows an increase of 104,937*l.* This is mainly due to—

1. Certain small increases of Establishment, including 93 additional men to the Royal Engineers for Ordnance Survey work, and the additional large depôts required for four regiments having both battalions abroad. This, including the additional provision required for the increased number of Effectives, accounts for about 30,000*l.* in this Vote.
2. The growth of the 1st Class Army Reserve, which stood at 80,349 on the 1st January, 1894, as against 76,595 on 1st January, 1893. The sum taken in the Estimates for the current year has fallen short of the expenditure by about 16,000*l.* The additional sum provided for 1894-95 amounts to 57,260*l.*
3. Increased provision for wages. This is mainly for the pay of Barrack Wardens, who, under a recent scheme, will be selected from non-commissioned officers in receipt of pension. As they will receive a rate of pay including their pension this increased charge will be partially met by a saving under the Non-Effective Votes.

Provision has been made to enable a larger number of men than usual of the 1st Class Army Reserve, to carry out a limited period of drill in 1894-95. It is proposed to call out for a period of three days' training, or 12 drills, all men who will enter on the 10th year of their army service between the 1st April, 1894 and the 31st March, 1895, with a view to their instruction in the use of the magazine rifle. The drills will be arranged so as to preclude as far as possible interference with the men's civil employment.

The recruiting for the Militia has been brisker than was anticipated when the current year's Estimates were framed. This has caused a deficiency on this year's Votes, and an increase sum of 40,000*l.* will be required for 1894-95.

As regards the Volunteers, the number of efficient is still growing, and this fact coupled with a largely increased attendance at Brigade Camps, requires a further provision of 18,000*l.* New regulations as regards musketry requirements for the Volunteers have been approved, which will come into operation

on the 1st November next ; it is hoped that as a result the shooting throughout the whole force will be improved.

The Vote for supplies shows the large increase of 109,800*l*. This is mainly due to the great rise in the price of hay on account of the long drought of last summer ; coal also has gone up in price, and fuller provision has to be made for the rations of the Regular Forces and the Militia on account of the Establishments being so full.

The Clothing Vote stands at almost the same figure as last year. This Vote includes provision for the initial cost of the new scheme by which the soldier will be allowed to retain his part-worn clothing, and to receive compensation with fewer restrictions than before. Beneficial results are anticipated from the change, and in a few years when the new system is in full force, there will be no increased expenditure over that entailed under the old regulations.

The Vote for Warlike Stores shows a decrease of 20,400*l*. Large supplies of magazine rifles for the Infantry have been received. At the factories the work of the year will be mainly devoted to arming the forces which carry the carbine, though considerable deliveries of the Infantry arm will continue to be made throughout the year by the contractors. On the other hand, owing to the extensive building under the Barracks Act of 1890, it has been found necessary to make large increased provision for barrack and other stores for properly fitting out the new barracks.

The increase of 43,000*l*. on the Works Vote is solely due to the annuity that has to be provided in repayment of the sums borrowed during 1893 under the Barracks Act of 1890. These annuities will necessarily increase until the year 1910, by which date the liability has to be discharged. There remains to be raised a sum of about 2,300,000*l*.

I am glad to say that the expenditure on the Non-Effective Votes as a whole shows a net reduction of 30,000*l*. as compared with 1893-94. As the sum taken provides for concessions made to the old campaigners, and to the men living abroad who desire to commute their pensions, and also to civil employés in the factories and other departments, it may be hoped that the high-water mark has now been passed in regard to this class of expenditure.

H. CAMPBELL-BANNERMAN.

ARMY VOTES, 1893-94.

TREASURY MINUTE, dated 14th March 1894, under Section 4 of the Appropriation Act, 1893 (56 & 57 Vict. c. 60), authorising the temporary application of Surpluses to meet Excesses.

My Lords have before them a letter from the War Office, dated the 8th instant, representing the probable surpluses and excesses on Exchequer Grants for Army Services for the year 1893-94, accompanied by explanations showing that it would be detrimental to the Public Service to postpone the expenditure causing those excesses until provision can be made for it by Parliament in the usual course, and proposing, therefore, to defray such excesses temporarily out of the surpluses, viz. :—

VOTE and SERVICE.	Probable EXCESSES over Exchequer Grants.	Probable SURPLUSES of Exchequer Grants.	CHIEF CAUSES.
VOTE 1. Pay, &c. - - - -	£. -	£. 35,000	Increased payment by Egypt on account of the increase in the occupying Force.
VOTE 2. Medical Staff - - -	3,200	-	The abatement in respect of expected vacancies was excessive.
VOTE 4. Yeomanry - - - -	3,100	-	Pay of Adjutants and Permanent Staff who have become supernumerary on reorganisation, and are in process of absorption.
VOTE 5. Volunteers - - - -	14,700	-	Inadequate provision for Camp Allowances.
VOTE 6. Transport and Remounts -	24,500	-	Insufficient provision for movement of Troops, and deficiency in receipts from sale of horses.
VOTE 8. Clothing - - - -	15,000	-	The numbers serving in the Army and Militia were in excess of those contemplated.
VOTE 10. Works - - - -	-	3,100	Delay in progress with works (allowance being made for a Supplementary Estimate for this Vote, in respect of the Maplin Sands award).
VOTE 12. Miscellaneous - - -	-	3,500	Over-estimate for rewards for inventors, and compensation for losses.
VOTE 13. War Office - - - -	-	2,900	Casualties in the Clerical Staff.
VOTE 14. Officers' Pensions, &c. -	-	20,000	Adjusting payments by India, and an over-estimate of gratuities to officers on retirement.
VOTE 15. Men's Pensions, &c. -			
VOTE 16. Superannuations, &c. -	3,000	-	Under-estimate of superannuations of workmen, &c.
Balances irrecoverable -	1,000	-	Claims abandoned, &c., for which no specific Vote is taken.
£.	64,500	64,500	

The estimated excesses are exactly equalled by the estimated surpluses, on the supposition that the Supplementary Army Estimate presented to Parliament for 1893-94 is voted.

Under the powers given to them by Section 4 of the Appropriation Act, 1893, my Lords authorise the temporary defrayment of these excesses out of the surpluses accordingly.

PUBLIC ACCOUNTS (ARMY VOTES).

COPY of TREASURY MINUTE, dated 14th March 1894, under Section 4 of "The Appropriation Act, 1893," authorising the temporary application of Surpluses on certain Army Votes for the Year 1893-94, to meet Excesses on certain other Army Votes for the same Year.
